Idaho Digital Learning Academy coursework

The Idaho Digital Learning Academy (IDLA) is a virtual school created by the State of Idaho to increase the number of course offerings available to Idaho students (Idaho Statute 33-5502).

Use of IDLA classes

Moscow Charter School uses IDLA classes to supplement our available course offerings. Students in grades 6-8 may use an elective period for school-supervised IDLA coursework in subjects not offered at MCS, such as foreign languages.

IDLA courses taken outside this elective period will not be considered school-supervised and must be taken under parental supervision outside of school hours.

IDLA courses may not be used to replace courses that are already offered at Moscow Charter School, except for the Gifted and Talented program.

For a Gifted and Talented student to qualify for supplemental enrollment in IDLA, they will need to demonstrate excellent work ethics, and their skills will need to be two standard deviations above the mean in the area of Academic Skills and Academic Applications for overall achievement.

Enrollment policy

All students enrolled at Moscow Charter School must be enrolled for a full course load, regardless of the total number of credits they are enrolled in through IDLA.

Grading

For all IDLA classes taken under school supervision, IDLA will provide a percentage grade to MCS, and this grade will be reported on the student's report card. The student will be granted the same middle school credit for successful completion of a school supervised IDLA course as for an in-person elective course.

Fees

Through the 8-in-6 program, the State of Idaho will pay the \$75 fee for IDLA courses taken under school supervision by students in 7th and 8th grade. MCS will pay the fee for 6th grade students who take and pass elective classes that meet the guidelines stated above. Fees for students who do not receive passing grades in IDLA classes will be billed to parents.

MCS will pay the fees for IDLA classes taken under the auspices of the Gifted and Talented program, for students who meet the qualifications stated above.

Advanced Opportunities: 8 in 6 program

This state program is described here: <https://www.sde.idaho.gov/site/advancedOpp/advancedOppBrochure/#8-6>
The state will pay for up to 2 online summer courses and 2 online overload courses per student per school year, for a maximum of 4 courses per year.
