Days ago a horrible terror attack happened in London in the U.K. A 52 year old man was identified to be the murderer of a retired police officer and two Americans. The two injured Americans were celebrating their 25th anniversary of marriage. The woman was critically injured, and is in the hospital as we speak, The man unfortunately passed away due to the extreme injuries. London is in a panic and all are in shock and sadness for the tragedy that occurred only days ago. Many gathered around the center of London and gave a moment of silence for the two men or lost their lives. One day ago the London police identified the shooter to be a 52 year old man, Khalid masood. Khalid was found by the police yesterday and was on a pursuit, Khalid was shot down by a city police officer. Just before khalid was shot down he stabbed a cop in the neck ending another innocent life.

**Dear Austnah Advice Column**

**By: Hannah and Austin**

Dear Austnah,  
 I don't want to do my science homework and my teacher keeps getting frustrated with me. How can I get this teacher off my back?  
 Sincerely, Boo homework

Dear Boo,

Well your teacher has been telling you to do your homework. So if you do not do your homework, your grade will suffer. That means you should do your homework, if you do your homework your grade will go up and your teacher will be happy. You should set a timer, and tell your parents to ask if you have homework. Don't be afraid to try to do your homework.  
 Sincerely, Austnah

Today we are going to be talking about our wonderful fourth grade teacher, Mrs. Kathryn Bonzo. She was born in Birmingham, Alabama in 1962, she has been happily married for 30 years, and she has one adult daughter. She became interested in teaching when she in second grade and after she got her teaching degree she went on to teach a variety of subjects (World History, Government, Economic, English, and Social Studies.) in high school. Then went on to teach middle school, after that it was preschool, and then she went on to teach all the intermediate grades. She began to teaching it the year 1986 and has been teaching for about 31 years. Mrs. Bonzo has also taught overseas in the countries of Algeria, Singapore, and in the Dominican Republic. She was also an exchange student in high school.

## ⌘ SLIDER F. ⌘

By: Iris

### Previously:

I grabbed my bag, and as 'Richard' gave his speech, I walked down Slider F. And another wormhole appeared, and again, the wormhole of ice sucked me in.

### Continued:

I woke up in a tropical area. It isn't what I expected since the earth above Haven is 150 degrees below zero. It's pretty humid. I'm wearing several layers due to the fact that we expected it to be freezing. I take off as many layers as I needed and put the extra clothing in my abnormally large backpack.

I don't recognize any of the plant species from my studies of earth's surface. I hear a loud hiss from behind me. I whip my body around to see what it was. All I see is a huge, black, and scaly tree trunk. At least... that's what I saw at first. I look closer, and I notice that it's moving. I look behind me and notice that the same form is about thirty feet away from me. It's forming a circle around me.

To my left is a huge alligator body. I estimate it to be at least twenty feet long. I step closer to the black body encircling me. I look behind to see a huge snakehead. About five feet long and four feet wide. A massive giant. I pull out my phone to take a live holographic video to send to Haven. All of a sudden, though, the snake's head appears right in front of me, and I drop my phone with the live camera still on.

## Current Events

By Soren:

### **Sports:**

Josh Jackson who plays for Kansas City Jay Hawks should be in prison for several offenses. He was standing up for a friend that was arguing with a lady who threw water in his face. He went to the lady's car and destroyed it. But he is still playing ball.

### **Politics:**

There was a concern that President Trump was wire tapped by Obama. The former CIA chief said that the CIA were wiretapping not Obama and he said that Trump should apologize to Obama for what he said. [ according to Weeks News].

### **Environmental & Weather:**

There has been a below record rainfall but there still has been flooding. The rain, that came all at once, melted the snow that has been around. This caused flooding in Paradise Creek. In our school Marion's basement flooded and there was bad carpet damage. The water level was 3 to 5 feet.
