

UI CALS Summer of SCIENCE

CALS at the Market

Saturdays from 9 a.m. – 12 p.m. | June 3 – August 26
Moscow Farmers Market

Learn about the science behind agriculture, including insects, earthworms, mustard seeds, dairy, water, plant science, nutrition and much more with the University of Idaho College of Agricultural and Life Sciences (CALs)!

- Children will receive a **science passport** during their first visit to the CALS booth.
- Those that attend at least five events will be entered into a **drawing for great prizes**.
- Children will also have the opportunity to build their own **science kit**, earning different pieces each Saturday.

Check our website and follow us on Facebook for an up-to-date list of activities happening each Saturday at the market.

Saturday Academy of Science

Want more science? Join us on the UI campus for additional events that build on topics presented at the market.

June 3: Insects

Tour the UI's William F. Barr Entomological Museum and check out over 1 million mounted species! Learn more about the importance of insects in agriculture.

June 10: Pollinators

Bees play a very important role in our ecosystem. Learn more about these hard workers and their habitats.

July 8: Milk Comes From Where?

Milk provides many delicious and nutritious foods. Learn more about the science behind dairy and how to milk a live dairy cow!

July 22: Stream Assessment

Join IDAH2O at Paradise Creek to complete a stream assessment. What kinds of fish and insects live in the water? What types of things do they need to survive?

August 12: Amazing Mustard

Mustard is used for more than just hot dogs. Learn more about the wonders of the mustard seed and its many uses.
